

Town of Northumberland
APPLICATION FOR A BUILDING PERMIT

Application Date:
Permit No.:

Tax Map & Lot # Account Number Serial Number Approval Date

is authorized to perform the following building or renovation work on property located at

Please provide a detailed description of building or renovation that is proposed listing the contractor (s) names and phone #'s:

The Building Inspector shall advise that applicants be aware that all work meets the NH IBC 2009 Building Code, RSA 319-c for licensed electricians, RSA 329-A for licensed plumbers, and the Lead Paint Rules. Contractors are required to purchase an annual commercial transfer station sticker for demo and/or renovation if the contractor is disposing of any building debris at the Northumberland facility and the property owner is responsible for notifying outside contractors from other towns about the commercial fee. See attached schedule of fees for the permit(s) and the debris.

Is this located in a Floodplain Area? Yes No If yes, please fill out an elevation certificate and return to the town office.

Is Driveway Permit Obtained? Yes No N/A (Existing) If new, required prior to Building Permit.

Water Connection? Town - Existing or New Private Well?

Sewer Connection? Town- Existing or New Private? Requires Septic Design w/ State Approval

Zoning Classification (See back of application for requirements of each zoning classification).

By signing this document, I acknowledge that the above information is correct and that all requirements specified in the Zoning Ordinance will be met (particularly in regards to minimum setback requirements). Should I intend to build inside the minimum setback requirements, or should the proposed project not comply with the "permitted use" in any way, I understand that I will be required to seek a variance (see variance procedure, Section 7.5, Northumberland Zoning Ordinance). See back of this application for minimum setback information.

Variance not needed (applicant initial here) Variance needed (applicant initial here):

For New Homes Only: 1) Residential Structures Utilizing Fossil Fuels or Electric Heat, 2) Commercial Structures Under 4,000 Square Feet, 3) Structural Alterations in Excess of 50% of Structures Current Value, 4) Some Structures Undergoing Winterization Upgrades (In Whole or In Part), and 5) Structural Additions in Excess of 150 Square Feet: Has the applicant received certification of compliance with the N H Residential Energy Code from the N H Public Utilities Commission? Yes No

If yes, please provide certification number:

(If the applicant has NOT received certification, (s)he must obtain certification prior to issuance of a building permit from the Town. Information regarding the Residential Energy Code is available at the Town Offices or from the PUC Executive Offices)

Please Note: Upon request, the State OF NH Division of Emergency Services Bureau of Emergency Communication will assign a 911 number to an addressable structure or building currently occupied or that may be occupied in the future to which emergency services may be dispatched. The homeowner is responsible for contacting the local 911 liaison at 603-636-1057 to start the 911 assignment process as soon as the structure construction has begun.

SELECTMAN

**Section 7.3 Building Permits**

1. A building permit must be signed by the Building Inspector and subsequently approved by the Selectmen if the footprint of the property will be changed in ANY way. A building permit shall not be required for remodeling or repairing unless the anticipated cost of materials for such work exceeds \$5000. The building permit must be posted on the premises and be visible from the highway.
6. Driveway Permits
  - a.) A driveway permit shall be obtained from the Selectmen or Building Inspector before any action is taken to erect, construct, move or expand a driveway accessing a town road. The driveway permit application may be obtained from the assessor's office. Any changes to a driveway accessing a state road needs approval from NH DOT. The road agent or public works director must approve the location and dimensions of the driveway.
  - b.) The Board of Selectmen or Building Inspector may impose conditions on the permit to ensure that the zoning ordinance is followed.

**TO AVOID DELAYS IN PROCESSING, IT IS RECOMMENDED THAT ANY CHANGES TO THE FOOTPRINT OF THE STRUCTURES OR THE ADDITION OF DECKS, GARAGES, OUTBUILDINGS, PORCHES, ETC., INCLUDE A SKETCH OF THE LOT AND THE PROPOSED LOCATION OF CONSTRUCTION (WITH LOT, BUILDING AND SETBACK FOOTAGES LISTED). YOUR ASSISTANCE IN THIS MATTER WOULD BE GREATLY APPRECIATED.**
